Remind

Remind Premium Live Webinar Training

AUDIENCE	DESCRIPTION
Live Webinars	
Administrator Training *90 minutes*	Live webinar training session with a Remind team member for your school or district administrators, based on your goals and needs. Content can include: ● How to develop a building or district policy for Remind and a rollout strategy for your community ● How to craft effective messages and tailor your message type, content, and cadence for different audiences ● How to better use core administrator tools and features to reach your school year goals (such as attendance and family engagement)
Teacher Training *90 minutes*	Live webinar training session with a Remind team member for your teachers and/or staff, based on your goals and needs. Content can include: ● How to best setup your Remind account and use teacher features (translations, tool integrations, voice calls, etc.) to improve student and parent communication, whether remote or in the classroom ● How to improve your family communication and engagement plan with strategic best practices for the classroom ● How to craft effective messages and tailor your message type, content, and cadence for different audiences
Train the Trainer *90 minutes*	Live webinar training session with a Remind team member for your professional development team, based on your goals and needs. Content can include: ● Review of teacher features with best practices for the classroom ● Introduction of training materials and resources to confidently train your teachers on how to use Remind ● Orientation to Remind training & support resources ● How to best use core administrator tools and features (schoolwide or districtwide messaging, personnel management, analytics, etc.) Recommended for districts with E-Learning Specialists, TOSAs or other established trainers.
Technical Support Training *45 minutes*	Live add-on webinar training session with a Remind team member for your internal technical support team, based on your goals and needs. Content can include: ● How to interpret and troubleshoot common Remind questions ● Diagnosis and prevention of common Remind issues ● Orientation to Remind support resources and how to use them Recommended for schools and/or districts with IT, technical support, or any other support teams that will be serving as the first line of internal Remind support. **Note:** must be purchased as an add-on with either Administrator or Train the Trainer session for the same group, cannot be purchased alone.
Custom Webinar	A Remind team member will collaborate with you to design a custom training session that will best meet the needs of your staff and schedule.
