For Teachers (Non-Rostered)

[DISTRICT/SCHOOL] is rolling out Remind [district/school]wide! If you're not already familiar with Remind, it's a classroom messaging tool that helps you engage students and parents every day.

To access your school on Remind, please go to Remind.com and sign up for an account with your school email address. Once your classes are created, you'll be able to set the preferred language for your students and parents so they can receive messages in their home language. Learn more about Remind's translation tool here. Also, check out 10 ways other teachers are using Remind.

We'll be holding a training session for Remind on [DATE]. We'll be walking you through how to use Remind, so please make sure you've set up your account by then.
